Founded in 1931, the Genetics Society of America (GSA) is the professional membership organization for scientific researchers, educators, bioengineers, bioinformaticians, and others interested in the field of genetics. Its nearly 5,000 members work to advance knowledge in the basic mechanisms of inheritance, from the molecular to the population level. The GSA is dedicated to promoting research in genetics and to facilitating communication among geneticists worldwide through its conferences, including the biennial conference on Model Organisms to Human Biology, an interdisciplinary meeting on current and cutting-edge topics in genetics research, as well as annual and biennial meetings that focus on the genetics of particular organisms, including *Caenorhabditis elegans*, *Drosophila*, fungi, mice, yeast, and zebrafish. GSA publishes *GENETICS*, a leading journal in the field, and an online, open-access journal, *G3: Genes|Genomes|Genetics*. For more information about GSA, please visit [www.genetics-gsa.org](http://www.genetics-gsa.org). Also follow GSA on Facebook at [facebook.com/GeneticsGSA](https://facebook.com/GeneticsGSA) and on Twitter @GeneticsGSA.

*GENETICS* (ISSN 0016-6731) is published monthly by the Genetics Society of America, 9650 Rockville Pike, Bethesda, Maryland 20814-3998. For pricing, consortia sales, or a multi-site quotation, please contact Tracey DePellegrin, Executive Editor, at [tracey.depellegrin@thesajournals.org](mailto:tracey.depellegrin@thesajournals.org) or 412-226-5930.
