

CORRIGENDA

Volume 80, May–August, 1975

In WEHRHAHN, C. F., 1975 The evolution of selectively similar electrophoretically detectable alleles in finite natural populations. *Genetics* **80**: 375–394.

Figure 3 is with the caption for Figure 4 and Figure 4 is with the caption for Figure 3.

In equation (14) (on page 379) Z_i should be raised to the power $|k|$ (absolute value of k) instead of the power k .

In equation (24) (on page 380), the last line should begin with a minus sign instead of a plus sign.
