Figure S2  Effects of expression of a Cdc13-Est2 or Cdc13-Est1 fusion in tlc1Δ48 or yku70Δ strains, respectively. Telomere length analysis by Southern blot of XhoI digested DNA isolated from 3X-6X serial single colony streakouts of cdc13Δ (WT), cdc13Δ tlcΔ48 (tlcΔ48), cdc13Δ yku80-135i (yku80-135i), cdc13Δ yku70Δ (yku70Δ), and cdc13Δ yku80Δ (yku80Δ) strains expressing a (A) Cdc13-Est2 or (B) Cdc13-Est1 fusion.
