</tbody>
</table>

a Brains were dissected from 7-8 d old adults carrying one copy of both the indicated Or47b-219 insertion and the UAS-GFP. Five brains per genotype were examined. Or-to-glomerulus mapping (COUTO et al. 2005; FISHELEVICH and VOSHELL 2005) and Or-to-ORN mapping (GOLDMAN et al. 2005; HALLEM et al. 2004) were previously reported and are shown here for reference.

b Abbreviations: n. d., not determined; +, glomerulus labeled; ~, glomerulus weakly and/or inconsistently labeled; unmarked, GFP labeling not detected.

**Literature Cited**
