Figure S3  Correlation of $\text{DCA}_{\alpha=0}^{\alpha=0}$ and $\text{DCA}_{\alpha=0.6}^{\alpha=0.6}$ scores. DCA was performed as in Figures 2E, F. Least squares regression line (red) is shown along with correlation coefficient $r$. 

A

B

$D_{ij}$ Score, $\alpha=0$

$DIZ_y$ Score, $\alpha=0.6$

$D_{ij}$ Score, $\alpha=0$

$DIZ_y$ Score, $\alpha=0.6$

$r = 0.62$

$r = 0.62$
