Figure S2  Examples of flow cytometry analyses by SYTOX staining of fusants and parents. Four parents, W43a, OD8916α, AU90a, W17α, and their fusants W43a x OD8916α, AU90a x OD8916α and AU90a x W17α are shown. M1 and M3 are peaks in the DNA content distribution corresponding to exponentially growing cells in their G1 and G2 phases, respectively. M2 corresponds to S phase cells. The peak regions were selected visually based on the shape of the histogram.
