

**Figure S9. Pairwise correlations of MUC5B, *Muc5b*, and *Bpifb1* in preCC mice.** Scatterplots of each pairwise correlation with Pearson correlation  $r$  values are shown on the diagonal. \* $P < 0.05$ , \*\*\* $P < 0.001$ . MUC5B protein values shown as log-transformed integrated intensity and mRNA values shown as RT-qPCR negative delta Ct values of expression normalized to *Rsp20*.
